

Best Practices in Intervention for Young Children with ASD

A Parent Session facilitated by Giacomo Vivanti, Ph.D.

When: Wednesday, February 7, 2018

Where: UOG, School of Business, Rm. 129

Time: 5:30pm -7:30pm

This presentation will cover recent research on best practices in Autism Spectrum Disorder (ASD) intervention for young children birth through age five with ASD, including strategies that promote skill acquisition across cognitive, social, and communication domains.

Giacomo Vivanti, Ph.D., Assistant Professor at the A.J. Drexel Autism Institute, Drexel University, Philadelphia, Pennsylvania, is author of “Implementing the Group-Based Early Start Denver Model for Preschoolers with Autism.” His career has been driven by a key commitment, namely understanding the nature of learning difficulties in autism and developing effective programs to address such difficulties within community-based settings. This commitment reflects his life experience of growing up with two brothers with autism, as well as his diverse clinical and research background, which include postdoctoral experiences at the University of California Davis MIND Institute and the Olga Tennison Autism Research Centre, Australia.

Due to space limitation, please confirm attendance no later than

Friday, February 2, 2018 by contacting:

Parent Services, Division of Special Education
